About

Full stack JavaScript developer focused on user accessibility and DRY development

Projects

React Portfolio

September 2021 - September 2021

- Produced REACT.js components to create a scalable website
- Applied hooks and state to enable functionality
- Formulated a clean and accessible design

Budget Tracker PWA

September 2021 - September 2021

- Integrated Express.js creating an API in connection with the database
- Deployed service worker to update cache using JavaScript
- Utilized Mongoose for a backend database

Social Network Backend

August 2021 - August 2021

- Created an API using Express.js for middleware and endpoint functionality for retrieving data and loading content
- Instantiated Node.js for use in development and deployment
- Integrated the API and middleware with a Mongoose backend creating database functionality to store user, and comment information

Note Taker Application

August 2021 - August 2021

- Integrated UUID for better database management
- Used a JSON object based database for contextual note storage
- Linked the front and back ends using Express.js for an easy to use note taking application using endpoints to query and edit data

Command Line Management

August 2021 - August 2021

- Initialized Inquirer creating a prompt based office management program for use in tracking workers, budget, and salary
- Equipped workspace with Node.js for development
- Launched SQL tables for an organized and easy to read database
- Engineered JavaScript ES6 functions creating easy to read functionality

Weather Dashboard

August 2021 - August 2021

- Engineered specific JavaScript functions for DOM manipulation to create changing page content
- Implemented the Weather API which includes location and time matched forecasts
- Utilized ajax calls to collect and distribute data to the webpage
- Designed an accessible and clear UI in conjunction with changes to the page for a better user experience

Education

Rutgers Full Stack Development Bootcamp

April 2021-September 2021

- Received full stack JavaScript certification
